

Please take heed of the requests to delay action on altering the rules governing the number of media outlets that can be owned by a single entity. This is an area of vital importance to the American public, and deserves a complete and full public airing of the proposals, at a minimum.

From what I know of the proposals and the public hearings held to date, it would be a disgrace and an affront to the democratic process for the FCC to proceed with a vote at this time.

Further, I believe that the new rules you are considering are NOT in the public interest, but rather in the interest of particular big media conglomerates. Especially troublesome is the refusal to share the 250 pages of the proposed plan with the U.S. Congress and the public prior to the FCC's vote.

Please do not enact these new rules, but at a minimum delay the vote and allow the public sufficient opportunity to understand and comment on these rule changes.

Thank you,
Andrew Kudelka
